### **Quality Counts**

Winter brings visions of oyster roasts and steaming bowls of clam chowder.

When selecting live oysters

## and clams, look for:

- Tightly closed shells; if open, they shut when tapped
   Shells intact. moist
  - Mild Scent

#### Avoid:

- Gaping shells that do not shut when tapped
- Cracked, chipped, dry shells
  - Strong "fishy" odor

To find a North Carolina seafood market, go to: www.nc-seafood.org.

#### **Sustainable Fisheries**

Sustainable harvests mean we will enjoy seafood today and in the future. Species listed as North Carolina "Local Catch" are managed for long-term viability.

LOCAL CATCH: North Carolina Seafood Availability

Seasonal Choices For

WINTER

December, January and February

# Local Catch: North Carolina Seafood Availability WINTER

Through generations, fishing gear has been refined to target specific species. The seafood industry continues to work with researchers and government agencies to adapt gear to reduce bycatch, protect endangered species and maintain viable habitats. The following list highlights species in seafood markets and restaurants in winter. Ask if these or other choices are "Local Catch."

- Black Sea Bass: Caught in the ocean using traps (pots) and hookand-line gear.
- Bluefish: Caught in the ocean and sounds with gill nets.
- Clam: Harvested from sounds, or farm-raised by shellfish growers.

- **Croaker:** Caught with gill nets and trawls, largely in the ocean.
- Flounder (Summer): Caught offshore in the ocean with trawl nets.
- Mackerel, King: Caught using hook-and-line gear and gill nets.

- Oyster: Wild oysters harvested with tongs and dredges. Farmraised available year-round.
- Sea Trout, Grey (Weakfish): Caught in the ocean with gill nets.
- Sea Trout, Spotted: Caught using gill nets.

- Striped Bass: Caught with gill nets, seines and trawls in the ocean and sounds.
- Tuna, Bluefin: Caught offshore using hook-and-line gear.
